

# ASSET MANAGEMENT

Bring your station's asset management into the 21st century. ESO Asset Management allows you to access key asset information, helps you maintain compliance, and decreases liability, making it easier for you to serve your community.

## REAL-TIME REPORTING.

Track costs, maintenance, repairs and more to know when to replace items and understand the lifetime value of all assets. Rich reporting capabilities and a user-friendly dashboard help you maintain compliance and keep costs down.

## CONFIGURABLE USER MANAGEMENT.

Easily tailor roles and permissions for an unlimited number of team members across your entire agency. Keep the deep insights in the hands of administrators and simplify the everyday experience for crew members.

## FROM A COMPANY YOU TRUST.

At ESO, we understand how first responders work because we've worn the uniform ourselves. Not only are our products designed for you—you'll feel like they were designed by you.

## TRACK YOUR MOST IMPORTANT ASSETS.

Keep tabs on all of your assets, inventory and consumable items by station and location. Once you enter an item into the system, you can easily locate and monitor its status from any device. No more guessing where items are or which items are out of service.

## MAINTAIN THE HIGHEST LEVEL OF PREPAREDNESS.

Configurable forms allow you to track the information you need to keep your assets in top shape. Notifications keep you alerted to when assets need to be repaired or replaced. Guarantee the status and condition of your equipment and gear using our dynamic checklists.

## POWERFUL DATA STORAGE.

Add an unlimited number of assets and access 10 years of historical data. Asset Management helps you find key information on all of your important assets with ease. You'll be able to identify trends, make informed budgeting decisions and plan for future growth.
